

ZIVA

PERFECT SYNTHESIS BETWEEN QUALITY AND ESSENTIALITY

THE ESSENTIAL QUALITY FOR OPERATIONAL AND AESTHETIC NEEDS

Developed through the constant research by FARO for **innovative and performing solutions** for the dentist office, **ZIVA** is the ceiling light designed to satisfy operative and aesthetic requirements of the dentist office. The careful and scrupulous **selection of materials and components**, along with the **care for detail**, make ZIVA the perfect synthesis between quality and essentiality.

HOMOGENEOUS LIGHTING WITHOUT SHADOW AREAS

The ZIVA dental ceiling light used latest generation technologies that allow for homogeneous lighting that is proportional to the work environment, reducing both the shadow areas as well as operator stress and visual fatigue. The ideal solution for those that are searching for a ceiling light with high level performance at a competitive price.

The colour **rendition index > 90** and the **colour temperature** of 5.500 K, allow for an **actual determination** of **colouration** and greater definition of **details**.

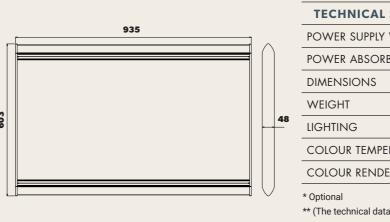

MAGNETIC FASTENING SYSTEM

Changing has never been so easy. The innovative **magnetic fastening system** makes ceiling installation extremely easy and intuitive, in the same way the **"Suspension kit"*** makes it possible to easily convert **ZIVA** into a suspension ceiling light.

This **dual installation mode** allows to place **ZIVA** on **any type of ceiling**, making it possible to modernize the image of the dental office, making it a modern, elegant and functional environment.
