

Sella II

SEALER

Technical Features

| | | | |
|---------------------|-----------------------|---------------------------|-------------|
| Power input | AC 110/220 V 50/60 Hz | Pre-heating time | 2 – 3 min. |
| Power output | 100 W | Heat preservation | Yes |
| Seal width | 12 mm. | Dimensions (W*L*H) | 46*36*17 cm |
| Seal length | 30 cm. | Gross weight | 7.5 Kg. |

Sella II

is intended for sealing envelopes for steam sterilization, one of sterilization auxiliary series products, which is attractive, stable, easy operation and low maintenance rate. Terrific transformer will automatically adjust to the best sealing temperature even in unstable voltage. Nice aluminum alloy body, easy for clean, and come with integrated cutter with 100,000 times cutting guarantee

- Sealing length: 30 cm
- Sealing width: 12 mm
- According to European standard sealing
- Bi-directional operational handle design
- PC board with automatic temperature control, available for continuous using
- Beep-alert (for heating Status)
- 100W energy saving design
- Comes with integrated cutter with 100,000 times cutting guarantee and roll support
