# Linea Patavium 2020

New Linea Patavium 2020 is the meeting point between OMS history and its endless stopping evolution. The heritage of his name, comes from Padova city, where OMS Headquarters and factory are based. The completely renewed design and the touch technology represent the way OMS looks at the future: thinking to doctor and assistant real needs, with the usual attention paid to comfort and ergonomics.

The dental unit has suspended cuspidor assembled to a floor-standing Arcadia EXT chair, which has 5 memory programs available, has been designed to guarantee great comfort and better posture to a sitting patient also with the possibility of including super memory upholstery and the choice among different backrest models.

Doctor console with 5-housing instrument with S.P.R.I.D.O. technology with single or double tray, can also fit extra housings for 2 suction tubes plus 1 housing for a non-dynamic instrument. Assistant console houses 2 suction tubes and also available the pantograph arm.
