

STRONG BUT GENTLE – LUNOS PROPHY POWDERS.

With the Lunos Propy Powders, the first priority is to protect sensitive dental substance whilst simultaneously delivering effective cleaning. They display an extremely low abrasive effect on tooth enamel and dentine and can therefore be used as part of regular recall treatments. This not only protects tooth substance, but also saves the therapist valuable treatment time and therefore makes the treatments more comfortable for patients.

Flavours:

FREE OF:

- ✓ ANIMAL-DERIVED INGREDIENTS
- ✓ LACTOSE
- ✓ GLUTEN
- ✓ FRUCTOSE

LUNOS PROPHY POWDER GENTLE CLEAN

For supragingival cleaning and removal of extrinsic discolouration.

Innovative abrasive agent trehalose:

- Particle size approx. 65 µm
- Does not irritate mucous membranes

Best water solubility:

- Leaves no powder residues in the patient's mouth
- Protects the suction unit

Ergonomic bottle with a single-hand flip-spout cap

Sales unit: 4 x 180 g

INTERCHANGEABLE SUPRA AND PERIO NOZZLES

For the MyLunos Duo powder jet handpiece, two different nozzles are available for supragingival and subgingival treatments. These can be rotated through 360° to enable easier access even in hard-to-reach areas in the mouth of the patient. The two nozzles can be swapped quickly and easily during the treatment, enabling highly efficient working.

SUPRA NOZZLE

FOR SUPRAGINGIVAL APPLICATIONS

The nozzle opening has an ideal opening angle and focuses the powder flow precisely on a large working area.

Flavour: NEUTRAL

FREE OF:

- ✓ ANIMAL-DERIVED INGREDIENTS
- ✓ LACTOSE
- ✓ GLUTEN
- ✓ FRUCTOSE

LUNOS PROPHY POWDER PERIO COMBI

For subgingival biofilm removal and supragingival cleaning. Ideal for recall and for assistance during supportive dental aftercare.

Innovative abrasive agent trehalose:

- Particle size approx. 30 µm
- Does not irritate mucous membranes

Best water solubility:

- Leaves no powder residues in the patient's mouth
- Protects the suction unit

Ergonomic bottle with a single-hand flip-spout cap

Sales unit: 4 x 100 g

MYLUNOS POWDER CONTAINER

Take advantage of the interchangeable chamber design of the MyLunos powder jet handpiece and prepare powder containers in advance based on demand.

Innovative product design:

- Secure closures prevent ingress of moisture.
- The containers can be fully reprocessed for reuse.

Range of colour options for improved organisation:

- Practical colour coding: e.g. use different colours for different types of powder, or assign specific colours to different therapists or treatment rooms.
- The containers are available in 5 colours: blue, orange, mint green, cherry red and purple

PERIO NOZZLE

FOR SUBGINGIVAL TREATMENT

The flexible and particularly slim Perio tip with a long working range and depth markings is supplied in sterile packaging.

COMPATIBLE NOZZLE SYSTEM

The unique compatibility of the nozzles with MyLunos and MyLunos Duo makes for flexible use of the accessories.
